CAREER-RELATED EXPERIENCE

Med-One Occupational Health Clinics, Fall 2017 – present

Health care provider, responsibilities include treating workplace injuries and providing pre-employment and DOT physical exams.

MidAmerica Orthopedics, Summer 2012

Worked as a medical assistant with responsibilities including interviewing patients, performing wound care and casting, and assisting with general office functions.

Urban Health Program Summer Prematriculation Program, Summer 2012

Worked as a teaching assistant and dissector in the anatomy program. Prosected cadavers, led a small group, wrote and proctored exams for students entering medical school.

MidAmerica Orthopedics, Summer 2011

Worked as an office assistant and IT support. Trained employees to use practice management software and developed instructional tutorials. Also learned basic casting and shadowed in the orthopedic clinic and operating room.

Universität zu Lübeck Institute for Robotics and Cognitive Systems, Summer 2010

Research assistant. Worked for a summer abroad on a research scholarship from the DAAD RISE program. Assisted on a project in computational cardiology aimed at obtaining an improved inverse solution to EKG data. Duties centered around implementing an electrical and mechanical heart phantom, programming its control, and creating a theoretical model of its behavior using Comsol Multiphysics. Also observed or participated in a variety of experiments carried out within the institute.
